- » Public/Government
- » Technology

We Make Buildings  
Run Better.

## Providing Power. Generating Solutions.

With nearly 90 years of experience, EMCOR Services Combustioneer (Combustioneer) is one of the Washington, D.C., Metropolitan Area's leading full-service, single-source mechanical, electrical, and building automation and controls firms. Using today's most advanced technology, Combustioneer helps clients optimize operational efficiency and productivity by integrating a variety of systems—including air conditioning, heating, lighting, power generation, and more. Combustioneer works to help clients achieve high-performance operation, reduced energy consumption, and maximum cost savings.

As one of the D.C. Metro's largest providers of critical power services, Combustioneer has the expertise needed to keep nearly any facility operating at its highest capacity. From the initial analysis of load requirements through installation and acceptance testing, the skilled team at Combustioneer is equipped to address a variety of power quality problems completely and efficiently.

#### A Full Suite of Services. Anytime, Day or Night.

Combustioneer offers a full suite of critical power and generator services installed and maintained by a highly trained professional staff on call 24/7/365. Using state-of-the-art technology, Combustioneer keeps generators running at their most effective, which means clients' facilities operate at maximum capacity. Combustioneer's critical power services include:

- » Generator installation, maintenance, and repair
- » UPS installation, maintenance, and repair
- » Battery maintenance and repair
- » ATS maintenance and repair
- » Generator and UPS rental
- » Load bank testing
- » Performance testing
- » 24/7 emergency response

#### Extensive Experience. Regardless of Brand.

Working with a range of manufacturers has given Combustioneer extensive expertise in servicing a wide range of commercial generators, including:

- » Caterpillar
- » Cummins
- » Katolight
- » Generac
- » Kohler Power
- » Onan
